THE "WANT OF CONFIDENCE" VOTE.

In the Legislative assembly on Wednesday afternoon and evening the "want of confidence" amendment referred to in another column was discussed.

The question at issue, if we may phrase it with such a name, was that of Saskatchewan representation on the Executive. This subject has already been referred to in these columns. As the formation of the Executive the member for Battleford occupied a seat on the committee. On the question of School Inspection he resigned. The member for Prince Albert was then invited to a seat on the Committee but for alleged business reasons he did not accept. At this time it was necessary for Mr. Haultain to go to Ottawa on business connected with the government, and at the eleventh hour he requested the member for Calgary to act. He consented to act until Mr. Haultain's return from Ottawa, when he resigned and the member for Battleford joined the committee.

It is manifest and indisputable that there was no sacrifice of principle in the selection of the Executive. In the debate, although the Opposition claimed that there was a tacit understanding that each district should be represented on the Executive, it was proved abundantly and conclusively that such was not the case. It is likewise manifest and indisputable that the District of Saskatchewan did not—could not—suffer in the slightest degree while it was without representation.

What therefore are the motives that prompted the amendment? What is the issue upon which the Executive is defeated? If it was hidden under the words "in other respects" it did not assume tangible shape during the debate. True, exceptions were taken to some minor matters, but the long-winded speeches thereon were delivered to empty benches.

The true inwardness of the case lies in this: the so-called Opposition is largely made up of members with an abnormal greed for office, an unworthy desire for power, who prostitute their manhood by supporting a motion, so worded that it appealed in some way both to the sinister motives of prejudice and the purblind cravings of ambition.

During the long, painfully-fought battle for Responsible Government some of the prime movers in this want of confidence motion were the advocates of a minority rule. Since the advent of Responsible Government these men seem to have been actuated by no higher feelings than those of carping criticism, and now at this late date they bring in this vote that is an insult to the intelligence of the House.

The press of the Territories is called upon to chronicle an event that is a disgrace to the Assembly, and the country is called upon to behold a spectacle that well may excite the wrath and indignation of the electorate—the spectacle of their representatives supporting a resolution founded neither upon justice nor upon common sense.

Banquet to Members of the Grand Lodge Next Week.

WINNIPEG, Aug. 23.—At a large meeting of the joint committee appointed by the city lodges of the Ancient Order of United Workmen, held Friday, it was resolved to entertain the members elect of the grand lodge at a banquet to be held at the Clarendon on Thursday, 25th inst. The grand lodge of Manitoba and the North West Territories will be organized on Wednesday of next week in Friendship Hall, McIntyre block. Members of the order can procure banquet tickets from Chief Code and the other members of the reception committee.

GOT THEIR WORK IN.

"WANT OF CONFIDENCE."

The Government Defeated by a Majority of one.

REINA, Aug. 24th 1892.—In the Legislative Assembly today, Bette moved in amendment to Haultain's motion to go into supply the following:—"Resolved, that the conduct of the Executive towards the district of Saskatchewan, and in other respects has been such as to destroy the confidence of this House, as the advisors of His Honor the Lieut. Governor."

The amendment was seconded by Mowat. After a spirited debate the Speaker left the chair at 17.30, Mr. Haultain having the floor. The Speaker resumed the chair at 22 o'clock and the debate was continued until after midnight, when the amendment was carried on a division of 13—12.

SMART TO STAY.

The Ex-Member for Brandon to Remain in the Government.

The Winnipeg Tribune announces that Hon. James A. Smart will continue to fill the office of provincial secretary and municipal commissioner. The premier and other members of the Government are said to be most anxious that he should continue in office, and a seat will, no doubt be found for him by the retirement of one of the members of the legislature.

FREE NAVIGATION STOPPED.

A TOLL OF TWENTY CENTS ON SHIPPING.

Through the Soo Canal.

WASHINGTON, Aug. 22.—An important action of President Harrison under the Canadian Retaliation Act of last September has been made public. He has issued a proclamation prohibiting the free navigation of the St. Marie Falls Canal, and imposing a toll of 20 cents upon all freight passing through that canal from Canadian ports. The President's proclamation, though constructively executed in Washington city, was signed at Leon Lake two days since and forwarded here for promulgation. President Harrison desired a memorandum of correspondence to be made public at the same time. The proclamation takes effect on Sept 1st, after which date all vessels with cargoes bound for Canadian ports must pay a toll of 20 cents per ton for passing through the "Soo" canal.

OTTAWA, Aug. 22.—President Harrison's proclamation created no little excitement here. Haggart Caron and Carling are the only Cabinet Ministers in the city, but all decline to express any opinion at present. The Cabinet is likely to be hastily summoned to consider the situation. The general impression prevailing is that the Government having taken a position by deciding to abolish the rebate system this season, will not humiliate itself by an abrupt surrender, which at the same time would assist the Republicans in the present campaign. No policy of reprisals is anticipated.

MONTREAL, Aug. 22.—President Van Horne of the C.P.R. said that President Harrison's canal proclamation might have some effect on the Company's steamship business, but that this would be made up in other ways.

BEATTY'S LINE AFFRONTED MOST.

Wm. Asking, general agent of the Northwest Transportation Co., Beatty's Jarvis line of steamers, who was in the city to-day said: "It will not make our company quit. We will continue to run but it may have the effect of raising rates on freight. We can do this and still get trade. In the end it will come out of our customer's pockets. Ours is the principal line affected."

OTTAWA, Aug. 23.—Rumors of concession by our Government, having been freely circulated, the Hon. John Haggart, Minister of Railways and Canals has been interviewed as to what course "the Canadian Government" would pursue in the matter. During the interview the Minister said "my opinion is that the policy of the Government will be to place Canadian shippers on the same footing as American shippers, even if they have to reap them out of the public treasury. I have heard nothing of the proclamation beyond what I have seen in the press. I see that the president has fixed the toll at 20 cents per ton, the same as is now placed on the Welland canal, and that they will only remain in effect during the time that we are continuing the alleged discrimination. Long before this we saw that it was in our interests to push ahead the 'Soo' canal so as to have a line of navigation between the great lakes and our own territories. Instructions have been given out to carry on and complete the work as soon as possible. The work will be carried on day and night until that is accomplished. I think that by the end of next summer we will have a system of navigation of our own connecting Lake Superior, far better than the Americans."

Day Cabinet held a meeting yesterday but we have not learned in time for press, what action was taken.

THE BRITISH PARLIAMENT

And British Politics.

LONDON, Aug. 19.—It is officially announced that the Right Hon. John Balfour has been appointed lord advocate for Scotland.

He is seeking re-election in Newcastle. The address delivered by him last week has won the admiration of every one and it is believed that it will go a long way towards his re-election. Even the Tory St. James Gazette says it is the speech of an honest and brave man. A curious feature of the contest is that Newcastle is placarded with announcement of a prayer meeting to be held every night at Central Hall in behalf of Morley's re-election. The placard says: "We mean business, for national righteousness cannot afford to be trifled with."

The Tories are making a good deal of fun of the prayer business as a feature in the election war it is well known that Mr. John Morley is a confirmed agnostic.

In order to harness the Government as much as possible, the Irish Unionists have formed a sort of vigilance committee, with headquarters at Dublin for the purpose of watching the Nationalists. The committee will have emissaries everywhere in Ireland looking out for the slightest acts that can, by any stretch of the imagination, be construed or made to appear as out-acts. These so-called outrages will be collected, and at regular intervals the matter will be brought up in the House of Commons, in the shape of an interpellation, addressed to the chief secretary for Ireland (Morley), asking him to explain how such a terrible state of society can exist in Ireland under a Liberal regime.

Alexander Asher, M. P. for Edinburgh, has been appointed solicitor general for Scotland. He was born in 1835 and has been solicitor general for Scotland in former administrations. He has sat for Wigan since 1881.

Samuel Walker, Q. C., has been appointed lord chancellor for Ireland. He was attorney general for Ireland under Mr. Gladstone's second and third administrations.

Thos. MacDermott who was solicitor general for Ireland under Mr. Gladstone's second and third administrations is now appointed attorney general for Ireland, and Sergeant Pamphill is appointed solicitor general for Ireland.

The Radical revolt is serious. They make no concealment of their rage at being rejected by Mr. Gladstone in his cabinet selections, and of their purpose to assert themselves at the coming session of Parliament. They declare that the time has passed for the people of England to be represented by a Liberal cabinet by aristocrats with and tuff-hunting candidates for titles and that the people are now strong enough to see that men of the people shall have a voice in the Government. It is reported that there is a strong probability of an approach between the Radicals and the Parnellites.

Sir Edward Reed is a disappointed office seeker and is prancing about London breathing out fire and slaughter because he has not been offered the first lordship of the admiralty.

Here and there another sore head appears to criticize Mr. Gladstone's Government, but these two are the most important malcontents, and their defection from the ranks of the premier's partisans coupled with the dissatisfaction in the Irish ranks and other causes mentioned in our issue of last week may make Mr. Gladstone's tenure of office, while it lasts, a very hot one.

Parliament has prorogued till the 4th of December next. Mr. Morley has been delegated the task of preparing the new Irish Home Rule Bill. The coming session will be fraught with interest to the civilized world.

FRIDAY, AUGUST 26, 1892.

THE GAME ORDINANCE.

As the sporting season has partly opened, it may be interesting to mention the following provisions of the ordinances now in force, referring to the same:

"No elk, moose, caribou, antelope, deer or their fawn, mountain sheep or goat, or hare, shall be hunted, taken or killed between the 1st of February and 1st of September in any year." Rev. Ord. cap. 25, sec. 2.

"No person shall fire at, hunt, take or kill, in any year any buffalo, grouse, partridge, pheasant or prairie chicken between the 1st of February and 1st of September. Any kind of wild duck; goose, snipe or plover, between the 15th of May and the 15th of August. Ord. No. 11, 1890 and No. 11, 1892.

"No person shall hunt, trap or kill in any year, any mink, fisher or martin between the 1st day of April and 1st day of November. Any otter or beaver between the 15th of May and the 1st of October. Any muskrat between the 15th of May and 1st of November. Any violations of the Ordinance, subjects the wrong-doer to a fine not exceeding \$50.00 and not less than \$5.00, with costs of prosecution, and in case of non-payment to imprisonment for a period not exceeding two months.

The old close season for ducks, etc., was from May 15th to Sept. 1st. but last year the assembly by a very small majority changed the date to Aug. the 15. A great error has been committed in this regard. The young ducks, plover, etc., are not fully grown, and in many instances, scarce able to fly, and we believe that all true lovers of sport will agree with us when we state that the Legislature should alter the date back to Sept. 1st. Such an alteration would prevent, to some extent, the wholesale slaughter (it can't be called sport) of young game, which, when shot now, are scarce worth eating.

THE DECLINE OF MECHANICAL SKILL.

Many years ago, John Ruskin, whose words of prophecy have had but too true a fulfilment, pointed out that the enormous increase of labor saving machinery which has characterized the present century, would inevitably result in a loss of the love of work, and pride in work for its own sake, and the love and pride that were the parents of mechanical skill; skill which, now they are dead, is itself decaying. The loss appears inevitable to those who scan the social horizon philosophically; it is, however, no less to be regretted because unavoidable.

The decline of mechanical skill, which is the direct result of modern shop methods, and the universal adoption of machine tools and labor saving machines, is as apparent as the collateral fact of the decay of artistic sense in workmen resulting from the gradual substitution of machine work for hand work.

The decrease of manual skill and artistic sense among mechanical workmen results not merely from want of such all round practice as they got half a century ago, but from a want of that sort of loving interest in their work the old-timers used to feel, when

they could put something of their individuality into everything that they made. Nowadays, the workman has simply to work out a design—or rather to run a machine to work out some part of a design—prepared by some artist whom he does not know, and never has seen. The general result may be beautiful when the different parts are assembled, but the workman feels that he has no personal share in the production of its beauty. He has become a regulator of a machine; he simply sharpens tools, adjusts them, keeps his machine oiled, and puts into it the material to be worked upon. All the precision, the nicety of operation, are due to the inanimate rather than the living tool. What interest can such work beget? What lofty ambition can it stimulate? What workman feels reluctant to leave his task or fingers over it to bring out some beautiful effect or interesting combination that he feels he must see before he can depart contentedly? If machines were invented to play billiards, and only by their use could this king of games be played, how long would this game be a favorite? If violins could be performed on only by automatic mechanism, or pictures painted only by machine-actuated self-charging brushes, who would be charmed any longer by art? Neither the artist nor the dilettante; the artist and the dilettante would cease to exist.

EDITORIAL NOTES.

The Hon. E. Dewdney will visit the North West next month. He will be accompanied by Mr. Burgess.

The Northern Pacific Railroad officials urge the Washington fruit growers to organize, and ship fruit to New York markets, where there is a demand. The rates are the same as from California to New York.

The Canadian Pacific Land Commissioner reports that so far this year the Company has sold land to the value of \$850,000, most of it to actual settlers. Last year during the same period less than \$170,000 was sold.

The county council of Bruce has decided to raise taxes for county purposes on land values with the exception of five per cent on personality. This is probably the nearest practical approach to the Henry George doctrine yet adopted in Canada.

The result of the examinations have at last been published. Many complaints are heard as to the great delay that usually characterizes this work. It is to be hoped that another year the examination of papers will be conducted in a more expeditious manner.

The North West Legislature have decided to bear the expense incurred by the authorities of the town of Calgary in connection with the recent small-pox outbreak. It is certain that the prompt measures taken in Calgary and elsewhere have prevented the spread of the scourge throughout the North West.

There was a rumor in railroad circles says the Montreal *Witness*, that a war of rates was imminent between the Canadian Pacific railway and the Grand Trunk, and that both railways were in "fighting trim" for a general fight all over the western and southern lines. There seems to have been some foundation for the story, though there has thus far been no such serious results as the rumor implies.

A walk through the town will surprise a person who has been absent from Moose Jaw for any length of time. Buildings are springing upon all sides. The majority of them are of the excellent red brick that is burned in town.

It is unfortunate that, viewed from the railway station, the town presents its worst side. The lots on which the remains of the last fire are still lying should be left in a more presentable condition.

Manitoba street would be as inviting as any in the town if a few eye sores were removed.

The C. P. R. will soon be in control of a new line which is being built along the Canadian side of Niagara

river. This road was called a tramway at its inception. It is no secret that the Canadian Pacific is laying itself out for a big share of European travel to the World's Fair, and if they can include in their programme the best possible view of the Falls, they will have scored another point. There is also a report that boats are to be put on Lake Erie to connect with the company's line at Detroit, but even if this is not done, Mr. Van Horne probably realizes that the Grand Trunk would like no better business than handling the thousands of through passengers, who may run over to Niagara Falls from Toronto, back to the Canadian Pacific main line at Woodstock.

We take the following from the *Vancouver World*:

Sir George Dibbs, premier of New South Wales, and Lord Villiers came as far as Mission on to-day's Pacific express, and left for San Francisco overland by the Sunnys branch. At San Francisco steamer will be taken for Sydney direct. The distinguished travellers expressed themselves as immensely delighted with Manitoba and the Northwest. The ocean of wheat fields passed through was a great surprise to them, and they were not slow in expressing the belief that Beconsfield's views expressed some twelve years ago, that the Northwest was a land of illimitable possibilities, will yet be realized. "In fact," said Sir George, "it is fast becoming the granary for the British market—the country from which the surging millions of the motherland will derive their supplies. Millions yet unborn will find their scenery was the grandest they had ever seen, extending over a journey of 500 miles." Sir George is warm in his praise of the all British route, and predicts that at no far remote date the Canadian line from ocean to ocean will form part of the grand chain which will bind the outlying colonies with the heart of the empire.

Methodist District Meeting.

The District meeting was held in Moose Jaw on the 19th inst.

The meeting was opened by singing the 94th hymn, the Scriptures being read by Rev. S. P. Brown, B. A., and Bros. Bales and Ross leading in prayer.

The roll being called the following answered to their names: Rev's J. Stacey, B. A., Chairman, S. R. Brown, B. A., Financial Secretary, S. Musselman, G. H. Bennie, W. Taylor, A. Roberts, E. Gregory, W. Reid, Laymen: Bros. Koles, Chisholm, Sharp, Star, Brown, Ross, Grierson, Rev. J. W. Woodworth, Superintendent of Missions and Rev. Mr. Bunt were also present and addressed the meeting.

The financial standing of each Mission was taken up by one and showed a creditable advance on last year.

Afternoon session commenced at half past one with usual preliminaries.

BOHARM JOTTINGS.

Since the Boharm Sparks went out, the inhabitants of the city have been very homesick, and we thought the Jottings would, in a small way take the place of the Sparks. Those of your readers who do not live in the Territories may not know the exact location of Boharm. Boharm is located 405 miles west of Winnipeg and 16 miles west of the "Soo" R. R. The principal productions are wheat, beef, and dairy products. There has been hundreds of car loads of wheat shipped during the past season, more in fact than at all the stations combined between Moose Jaw and Vancouver. In a future communication we will give you a list of the wheat fields.

Boharm has service every sabbath at 5 o'clock by Rev. Mr. Clay, Presbyterian Minister, and Mr. Gregory Methodist Minister, and Sunday School at 13 o'clock every Sabbath, Rev. Thos. Ager Superintendent. To any or all of the above services, the public are cordially invited.

To give you a list of the buildings already in town and those that will be erected in the future would take too much space in your valuable paper, however for the information of intending emigrants I might say we have a good school, and the scholars are progressing famously under the teaching of Miss Barber.

Mr. R. K. Thompson has returned from Ontario, and we are glad to state his mother is much improved.

Quite a number from Boharm attended the C. P. R. picnic at Qu'Appelle. Among the number we noticed Messrs. Paisley, Bastedo, Arnold, Porter, Hopkins, Lewis, Miss Annie Barber, Miss Maggie Latham and Miss Eva Porter. Mrs. E. N. Hopkins and Master James Erie remained in Regina for the day.

Next week we will give you a synopsis of the crops which are highly satisfactory.

RANGLER.

COMMUNICATION.

To the Editor of the TIMES.

Sir,

In your issue of July 29th, a contributed article entitled "From Winnipeg to Moose Jaw" contains some strictures on the Broadview Dining Hall.

In order that no injustice may be

done to the proprietress of the Dining Hall in question permit me space to say a few words.

Both passenger trains arrive at Broadview at very inconvenient hours and it is not to be supposed that all the delicacies of the season can be supplied in the middle of the night. The writer of the article must have been suffering from a severe fit of dyspepsia when he visited the Dining Hall. To my own knowledge trainmen speak very favorably of the way in which things are run at Broadview. Thanking you for space.

Yours respectfully,

Justice.

[Among the above, if any injustice has been done by the publication of the article in question we are glad our correspondent and also one who writes in the *Regina Standard* have endeavored to place matters in a proper light. We have no wish whatever to injure anyone's business.—Ed.]

LOCAL AND GENERAL NEWS.

Mrs. W. W. Bole is in Regina visiting friends.

The Lawn Tennis Tournament commences on Saturday.

A synopsis of the proceedings of the Legislature since the opening will be given in next issue.

Already some wheat cutting has been done. The crop is ripening rapidly and promises a good yield.

Mr. Wm. Riddell left on Tuesday night for Winnipeg. He goes to attend the fall race meeting.

Mrs. Williams, the wife of Mr. George Williams, rancher, left on Thursday evening's train on a holiday trip to Ontario.

W. D. Palmer, River St. East, sole agent for the Karn Organ. Received highest award and latest medal over all manufactures in Canada. Heintze man Pianos, Raymond Sewing Machine Needles on hand. Oils a specialty.

Mrs. James Ostrander has just returned from Spring Park, the ranches of Mr. T. D. Watson J. B., where she has been spending two weeks holidays. Mrs. Ostrander expresses herself as much benefitted in health through her short sojourn in the "Hills."

Mr. William Holmes, the well known rancher from Old Wife's Lake, was in town this week. He looks hale and hearty and reports his stock of horses in excellent condition. Mr. Holmes is one of the many successful ranchers to be found in the Moose Jaw District. He says ranching is far a head of the jewelry business.

The brick work of Mr. Bole's new drug store on the corner of Main and River streets is about completed. The building looks substantial, and will be when completed the finest place of business in Moose Jaw. When the new town hall and G. M. Annable's buildings, on the opposite corner are completed the appearance of Main street will be materially changed for the better.

Our lacrosse team were lately challenged by the Wascana club to play a game at the Foresters' picnic, at Lundon, on August 26th, the challenge was promptly accepted, and our team made all arrangements to carry out their acceptance of the challenge. Mr. W. J. Nelson was elected to act as referee, and Mr. Robert Martin as field captain, in the interest of the home team. Cheap rates were granted our team by the C. P. R., and all were in readiness when, the captain, Mr. John Melhuish, received word that the picnic had been postponed, thus rendering it impossible for the Wascana boys to meet with their request. However, it has been arranged that the teams meet to-day at Regina. Our boys left on last night's train.

Maud S. Enticed.

Maud S. is no longer queen of the trotting turf. Nancy Hawks reigns in her stead. The other day at Washington Park in the presence of 10,000 spectators Budd Ncole drove his beautiful mare to beat her record of 2:09. She not only beat her own record but lowered the world's record from 2:08 1/2 (time of Maud S.) to 2:07 1/2.

Mrs. J. Neimich left on Monday evening for Eyebrow Lake, where she will stay for a few weeks.

Miss Emily Green, succeeded in obtaining a 2nd class certificate in the teachers' examinations.

Members of the Masonic Fraternity are wearing a small black bow in memory of the late Grand Master M. W. Bro. J. H. Wilson.

It is the purpose of the Regina Standard to publish from time to time short biographical sketches of prominent men in the Territories. A photographic cut will also grace each sketch. The Standard is noted for its business enterprise, and this new departure will give additional interest to the personal of its columns.

In our account of the prizes in the Lawn Tennis Tournament in last issue an error was made in the description of the handsome cup donated by Mr. W. B. Crosbie. This cup is a Louis XI, and is of silver—not bronze. It is open for competition to any lady resident in the Moose Jaw District, for three months prior to the date of the Tournament in any year, and must be won three years in succession.

A Calgary dispatch says Locksley Lucas, anti-Chinese society organizer who attempted suicide there on Tuesday night, has been placed under arrest. During Thursday evening Lucas sent a letter to W. R. Hull, owner of the opera house in which he was billed to lecture that evening, stating that when Mr. Hull read the letter Lucas would be in another world. Lucas had taken ten grains of morphine, which was not large enough to cause death. After reviving he was taken in charge by the chief of police on the charge of attempted suicide. The letter which he wrote Mr. Hull was not made public, but was given to Crown Prosecutor Costigan. The cause of the attempt on his life is ascribed to financial difficulties and the ridicule which he was subjected to for having sent his washing to a Chinese laundry while at the same time lecturing against the Chinese.

FROM WINNIPEG.

Roman Catholics Decide to Maintain Separate Schools at Any Sacrifice.

WINNIPEG, Aug. 18.—A convention of delegates of Roman Catholics from all parts Wednesday night, and it was decided to maintain their separate schools at any cost or sacrifice.

An agent of the reciprocity convention shortly to be held at Grand Forks, Dakota, addressed the Board of Trade meeting here last night to interest Winnipeg business men in the scheme and insure the attendance of delegates. Dakota and Minnesota business men appear very anxious for reciprocity with this country, and just now are taking every kind of interest in our welfare. There are people here, however, uncharitable enough to declare that all these states want is to gobble our valuable and steadily growing trade.

E. B. Eddy, manufacturer of Hull, is here to look over the field with a view of establishing a branch industry here.

BINDER TWINE FAMINE.

A Shortage of Cord Will Keep One Hundred Binders Idle at the Portage.

PORTAGE LA PRAIRIE, Aug. 21.—There is a likelihood of a famine of binding twine here. It is estimated that 100 binders will be prevented from starting work to-morrow for the want of cord.

HELP WANTED.

Continued Demand From the Farmers for Good Laborers.

All the immigration offices in Winnipeg are in receipt of telegrams daily from farmers, asking for help during the harvest and threshing. The supply does not nearly equal the demand and but a small proportion of the requests are filled. The wages are good throughout the country, as high as \$45 a month and board being offered, but even with this inducement hired help is scarce.

DEATH ON THE RAIL.

Fatal Accident near Regina.

A sad accident occurred on the main line near Regina on Sunday last. At twenty-five minutes to three, as a freight had reached a point about four miles west of Regina, having left there shortly before, three men were seen about two train lengths ahead, lying on the track. Engineer Bedford whistled and the brakes were set but the train was on a down grade and it was stopped too late to save the sleeping men. Conductor Cowan and his men on a lighting from the train found that one man, Joseph Madeira, had his head badly cut and bruised and another, Robert Weissgerber, his legs cut off about at the knees, while the third man, Peter Berger, was struck on the head and so badly frightened that he scrambled across the prairie and soon reached his home in Germantown, Regina. The train hands lifted the wounded men into the caboose and backed the train up to Regina, where Dr. Low did all he could for the sufferers. Weissgerber was taken to the hospital and died shortly afterwards. He was a single man and had a brother here. Madeira, although painfully cut in the head and face is expected to recover. He has a wife and two small children. Both men are Germanic Russians and Catholics.

NORTH-WEST HARVEST

A Good Start Made—No Hard Wheat Especially Promising

WINNIPEG, Aug. 20.—To-day the Canadian Pacific Telegraph Company received reports as to the commencement of harvesting in Manitoba and the North West. While the growth of straw is not so enormous as that of last year, the quality of grain is excellent, and the quantity of number 1 hard will greatly exceed that of last and several previous years. All reports state that not the slightest damage has been done by hail or frost, and the total expected yield is very good, that of wheat being estimated at 20 to 40 bushels per acre, oats from 40 to 60, and barley 30 to 40. A good start has been made in harvesting. In some localities it commenced last week and this week it is general except in the most northerly districts, where it will be ready for next week. A very short continuance of the present favorable weather will ensure vast quantities of the very best wheat, and a crop that will astonish the skeptical people in the East. Farmers all over the country are delighted with the prospects, and those who are now harvesting their first crop in this country are enthusiastic. Good effects of the magnificent crop are being felt in business and money is reported easier in Winnipeg and elsewhere now than it has been for several years.
